**Idaho Average Pay per Hour and Year

\$10.00 hr.
\$20,800 yr.

\$20.00 hr.
\$41,600 yr.

\$30.00 hr.
\$62,400 yr.

The above educational and training categories are determined by the Bureau of Labor Statistics (BLS). The BLS determines the Standard Occupational Classification that apply to these 11 categories. The Idaho Research and Analysis Bureau then combines similar training and educational categories in order to form seven educational and training categories and calculates a new average wage by applying the appropriate weights to each category according to the employment totals and median wage of each occupation. Idaho also uses a statistical aging technique to improve the currency of the data. Therefore, the figures disclosed on this document and official BLS figures may slightly differ due to these varying statistical techniques. While 2005 is the release date, data are culled from 2001, 2002, and 2003 surveys. This three year sample is aged to reflect wages and educational levels in 2004. NA denotes Not Available.
